

"I feel more self-confident than ever before knowing that I'll have a better smile."
~ Alyson

Working to fix the broken smiles in our communities

Did you know that kids with bad teeth are **7 times** more likely to be teased and bullied by their peers?

For low-income children in our communities, getting their teeth straightened is a luxury they only dream about. In fact, more than **96% of low-income children** go without the treatment they need.

That's why **Advantage Smiles for Kids** was created. We are a non-profit organization that provides orthodontic treatment for low-income, at-risk children. Our mission is to provide these kids with happy, healthy smiles and lives, because every child deserves to be proud of their smile.

Visit us at: www.AdvantageSmilesforKids.org to find out more.

"Thanks a lot for making a kid that did not like to smile that much smile much more." ~ Lisa

"I will remember this gift for the rest of my life," ~ Jessi

"Thank you for my braces, Pretty soon I will have a beautiful smile," ~ Kaitlin
